How It Works

One pencil. Three pressures. A hidden picture.

Use just one pencil, or one colored pencil if you prefer.

light pressure

medium pressure

firm pressure

Try it here.

1 Read the number in a circle.

2 Press as the number says.

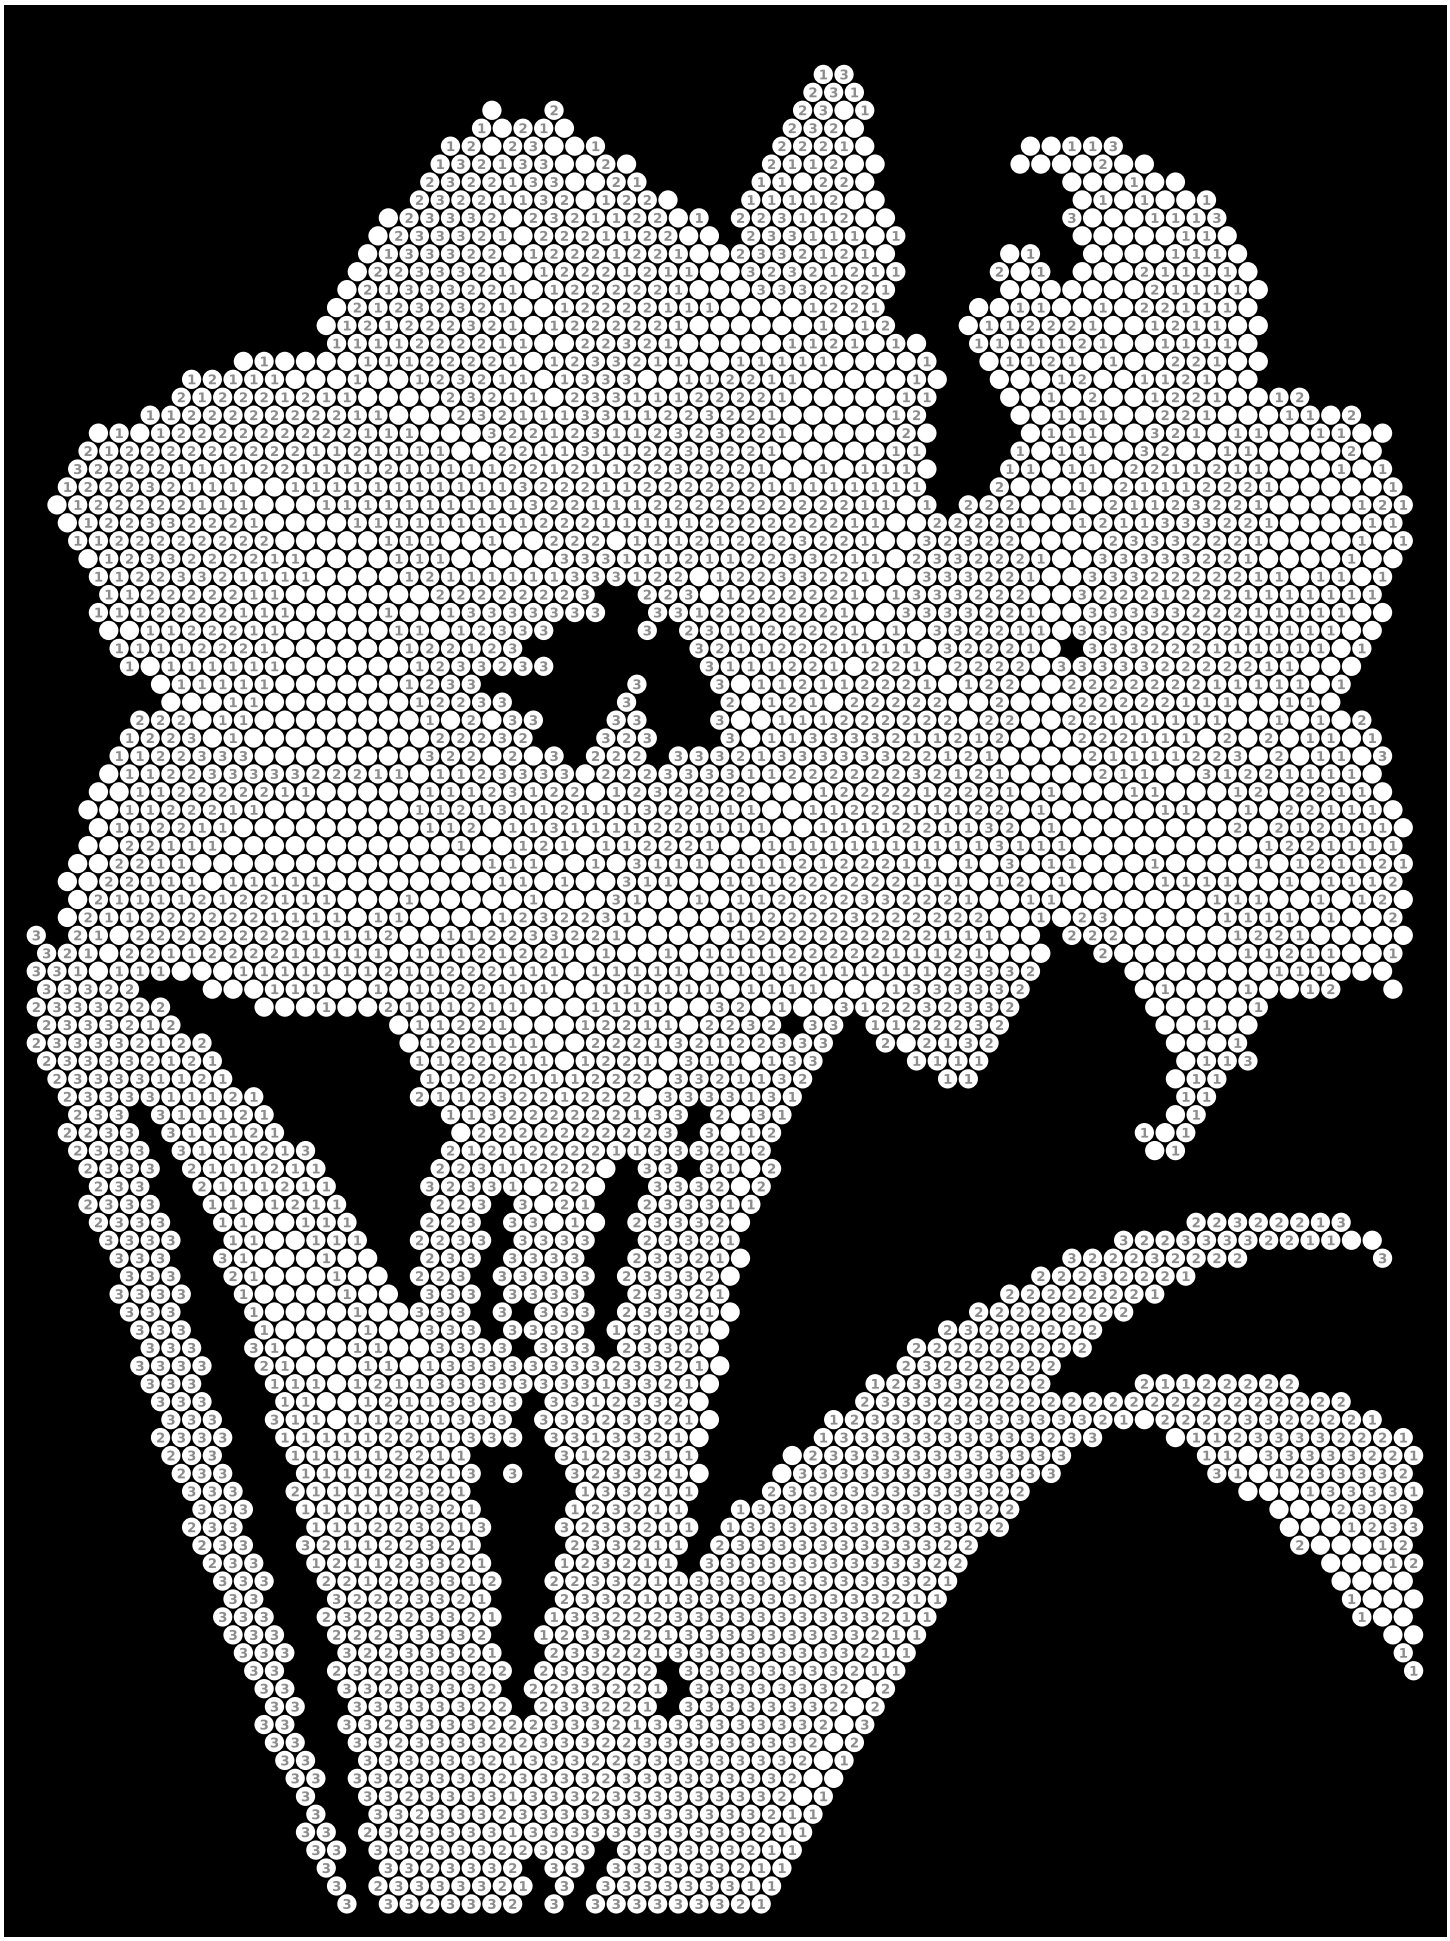

3 Leave white circles blank. Black areas are already filled.

Tip: slide a spare sheet under the page to keep pencil pressure off the back.

Shade by shade, the bloom appears.

Have fun, Picsariah
