How to Color

Every design has two pages.

On the left: the color key with the colors used in that picture.

On the right: the numbered hexagon grid.

Print at 100% / "Actual size" for the best result.

Print just the designs you want, one at a time, or all of them.

Heavier paper (160 g / 60 lb or more) works best with markers.

Match each number to its color and fill the hexagons.

Picture by picture, the magic appears.

You have the recipe — now add your own magic.
