1-2-3 Shade by Number

Your free sample

One pencil. Three pressures. A hidden picture.

Try 1, 2 and 3 in the boxes before you start.

1. Find the number in a circle.
2. Press as the number says.
3. Leave white circles blank. Black areas are already filled.

Inside this sample: a tiger from WILD and a cherry blossom branch from BLOOM.

Print at 100% (Actual size) on white paper. Slide a spare sheet under the page.

The pages have large black areas, so they use more ink than a usual coloring page.

Want 100 more? WILD and BLOOM at picsariah.com/shade-by-number

Have fun, Picsariah

Artwork created with AI image tools from my own prompts, then turned into numbered patterns with my own software.
